Our Stealth 178W offers the comfort of a dual console arrangement complete with a walk-through windshield. Perfect for larger lakes and reservoirs, this windshield offers protection from the weather on the long rides back to the dock.

Sporting a 115HP rating, the Stealth 178W will definitely offer eye-opening performance as well. While the 36" deep bow helps offer a dry ride in rough water, the standard 24 gallon fuel tank insures ample fuel for all day cruising, trolling or running those extra miles to where the fish are.
